Temecula 2009

March 27, 28 and 29, 2009

By Bob Mitchell

Once again, *Temecula 2009* is off to a great start. With more than Sixty

members already signed up for the event and more coming in every day, it's guaranteed to be a great time for all. This is as close to a mini-convention as it gets. Members have signed up from all four Divisions of the Pacific Southwest Region. In fact, this is once again the site of the Mid-Year Board meeting of the PSR to be held on Saturday afternoon. For complete details and Registration forms see page 6 & 7

We are hosting a Friday night *Bingo For Trains* at the **Mary Phillips Center** in Old Town Temecula for the early arrivals. We also have some select gifts for the ladies who might not be into trains as much as the guys.

Nine terrific clinics have been planned this year for Saturday morning starting at 8:00am and wrapping up at Noon. Of course the ladies can enjoy a morning of Old Town Antique Shopping while the boys are taking in all of the latest techniques. I should include at this point that sign-ups for the Locomotive Engineer 'Run-1' are required in advance of the meet. This year you can be the **Engineer**

on a **BIG FP45** and throttle it out on the main line at the **Orange Empire Railroad Museum** in Perris. You must call immediately to book reservations. We still have three openings on Sunday. This is normally \$245 an hour. We have been given special pricing again this year based on four people sharing the throttle for only \$55 per person.

For those of you who attended last years meet, you recall the layout tours we had last year north of the event in Moreno Valley and Riverside. The timing for that layout tour could not have been better as **Joe Corsetti** has since dismantled his terrific 'N' Scale layout of seventeen years.

This year we have four layouts that you can tour: **Jack Keefer's** Garden Railroad in Murrieta, **Steve Harris' Rio Grande Southern RR** in HO_{N3} (Cover Article in November '04 of MR), **John Sigurdson's** large 'O' Scale and 'On3' Logging layout in Escondido, **Jay Styron's** 'HO' 1950's era Southern Pacific Friant Branch line with lots of way stops.

Division Superintendent ~ *Bob Mitchell*

Just when it would appear that I can put one more Cajon Division event behind us, the next one is just on the horizon. So let me fill you in on what's ahead for this year.

Temecula 2009 is just a week away on the 27th, 28th, and 29th of March. As I sit here and compose this article

we already have 51 registrations and more coming every-day. Once again this event is also the Mid-Year Board meeting of the PSR which means our gathering will be made up of members from all four divisions. A great time for all of us to meet the volunteers that give so much of their time to the Region.

Next up on the big scale events will be the **Pacific Southwest Regional Convention in Las Vegas** on September 2nd through the 6th. This is the weekend before Labor Day on Monday the 7th. The **Texas Station Casino and Convention Center** has been chosen for this year's event and we have already talked to clinicians from the Lone Star and Pacific Coast Regions. You can expect a lot of clinics that are new to our Region and I highly recommend that you do not pass this one up. See article on "The City of Las Vegas" Pacific Southwest Regional Convention on page (9)

Barstow 2009 is right on the heels of this convention and the Western American Railroad Museum in Barstow is scheduling this event once again in October. We probably are not going to have our typical Chinese auction because of the Regional demand on donations for its auction. But we always seem to come up with something good so there is plenty of excitement for all.

FROM CARL'S WORKBENCH

Division Director ~ *Carl Heimberger*

To the entire Cajon Membership, 2009 brings us several challenges as it is now time to start putting the finishing touches on the NMRA/PSR, 2009 Convention in Las Vegas. For all you members who have enjoyed a relatively stress free four years since the Buena Park, 2005 convention it is time to give something back to the Division. We still have a need for members to present clinics and help volunteer to run and staff the convention. Please contact **Bob Mitchell 951-440-9729** or at cajondivision@coastinet.com to join the team. The 2009 NMRA/PSR Convention is held in Las Vegas, September 2 to 6, 2009, at the Texas Station. If you have not registered yet for this convention please contact Bob Mitchell he is happy to take your reservation.

"Cajon Division Wants You". We are looking for a few good men or women to take over the leadership of the Division in September 2009. This is a once in a lifetime opportunity for you to set policies and guide the Division into the next decade. The two positions that need to be filled are Director and Superintendent, but there are also numerous other Board Positions that need to be filled. The pay is not very good but the friendships you make are lifetime. Please contact me if you have any interest and I am glad to go over the job responsibilities.

The next big event for Cajon is the second **Temecula Meet**, which is held on March 27, 28, & 29, 2009. The format is similar to last year with clinics and bingo Friday night, Saturday brings more clinics, and Non-Rail activities, and driving the train at Orange Empire Museum, the afternoon has a Non-Rail luncheon, and layout tours to Northern San Diego. Events continue Saturday night with dinner at Oscars and the famous Cajon Chinese Auction. To secure your reservation for this extraordinary event contact **Bob Mitchell (951) 440-9729**.

Temecula 2009 Continued from Page 1...

The ladies have an opportunity to once again enjoy lunch in the **Vineyards** and even do a little shopping and wine tasting if they so desire before the Grand Finale on Saturday night.

This all brings us to Dinner and Cajon Division's famous **Chinese Auction** to be held in Temecula at

Pat and Oscar's by the Pond. This year we have locomotives in 'N', 'HO' and 'On30' to select from along with about 80-100 items from the manufactures. We have also arranged to have both rooms this year and are seated at round tables with plenty of elbow room in place of the "Sardine Farm" we had last year.

The Contest Room at Temecula

By Bill Jacobs, AP/Contest Chair

We're anticipating a great turnout for the contest at Temecula. I have arranged for six top-flight judges, so they won't be hurried in the judging and have the time to generate more feedback to the entrants. The contest room is open for entries from 8 AM through 10 AM on Saturday morning. Judging runs from 10 AM through 1 PM. Entries can be picked up later on Saturday afternoon. The time frame is posted in the contest room. Awards are presented at the dinner on Saturday evening.

Master Model Railroader Award

When I took this job, if you'll recall, I said that one of my goals was to have 10 new MMRs in the Division. I know that many of us are working on it. However-and this is a one time good deal-Carl Heimberger tells me that there are at least **10 OCMR** members that have participated in enough meets to earn the Association Volunteer Award, a step (actually 1/7th) toward being an MMR. So, Carl is going to have a list of all the dates of these events. If you think I am talking about you, here is what you'll need, (1) an Achievement Program Association Volunteer Record and Validation Form and (2) an Achievement Program Association Volunteer Statement of Qualifications Form. These are both on the NMRA Website. We are to get together at one time and fill these forms out-possibly Friday night. Now, the rest of you modular groups, think about doing the same thing!

Contests

We are doing three contests in Temecula: the **Judged Model Contest**, the **Photo Contest**, and the **Arts and Crafts Contest**. Here is what you'll need for each one:

Judged Model Contest

You need a Model Contest Entry Form #901 and a Model Contest Judges Score Sheet Form #902 for each entry. In addition to the regular awards the Judged Model Contest also features a Popular Vote Award, where the attendees get to vote (no stuffing the ballot box) on their favorite model.

Photo Contest

You need a Model Contest Entry Form #901 and a PSR Photo Contest Judges Score Sheet Form #602 for each entry. We have four categories:

- **black and white print prototype**
- **black and white print model**
- **color print prototype**
- **color print model**

Arts and Crafts Contest

You need a Model Contest Entry Form #901 and an Arts and Crafts Score Sheet Form #906 for each entry.

I know that many of you find the paperwork distasteful-but try it online, . With the exception of the PSR Photo Contest Judges Score Sheet, all are available at:

<http://www.nmra.org/education/achievement/apforms.html>.

There are plenty of the PSR photo forms available at the contest room.

Popular Vote Contest

There is also a Popular Vote contest, which won't take paperwork, but also does not provide points for your Master Modeler Award

Regional Contest Chair

By Bill Jacobs, AP/Contest Chair

On a related note, I have accepted the position of PSR Regional Contest Chair. One of my duties is the maintenance of the PSR Contest Guide-line, the rule book for how Regional Contests are run. I have just finished revising it and it is out for review by the PSR Contest Committee (and yes, the members were just as surprised as I was that there was such a committee and that they were on it). The Committee is composed of all the Divisional Contest Chairs. If all goes well, I hope to present it to the PSR Board in Temecula. It goes up on the PSR website, so that everyone knows what the rules are. If this works out, I am thinking of doing a similar document for the Cajon Division. Let me know what you think about that.

ORANGE COUNTY MODULE RAILROADERS at THE GETTY CENTER in LA

By Carl Heimberger

Is Model Railroading an art form? Well some members of **Orange County Module Railroaders, Inc.** and the **Getty Center** in Los Angeles think it is.

This past October the OCMR Inc. was invited to the Getty Center in Los Angeles to participate in their Family Festival.

The event is organized by the Getty Center to bring various artisans together for the promotion of the cultural and artistic diversity within the Los Angeles area. This year's event was centered on photography of California in the late 1800's to early 1900's. The Getty was hoping we could

keep the layout within that era but we really only have one modeler who models equipment of that era, so we compromised by keeping the layout and equipment to before 1940, and would run only steam

So with the negotiations behind us we started planning the 16 X 32 foot layout to fit a theme that would depict the Southern California in the 1930's to 40's. The next challenge was logistics as this show was only one day and we were not allowed into the Getty until 7:00 am. We then had two hours in which to set up and be running. We also had to run trains continually until 6:00 pm, then pack up and be out by 7:00 pm. Our crew of

14 members and several of their wives were up to the challenge and had the layout up and running before the 9:00 am opening.

So why would we take on a grueling challenge like this? Well we truly enjoy this hobby and it gives us the opportunity to introduce adults and kids to the World's Greatest Hobby model railroading.

The philosophy of OCMR is, *involvement of the spectators*, we allow both kids and adults the opportunity to run a train. I present as evidence the accompanying photograph, how can you say that these spectators did not have the experience of a life time. This is truly what model railroading is all about?

A Planning Session at Charlie Abbott's

By Bob Mitchell

Once again it was a pleasure to travel to Las Vegas and see Charlie's progress on his layout expansion. Very cleverly done! The first time I saw it I jokingly referred to it as 'Charlie's Ant Farm Addition' because it reminded me of one I had when I was a kid. The overall affect of coming through a divider wall

between where he parks his car and the dedicated train room is very, very clever and adds a lot of interesting track work and industry. In fact, this would make a great article for one of the major magazines...how about it Charlie...can we get you published.

This was actually a two fold meet. First we all had some great fun, show and tell, and watching trains run. And then we discussed the primary reason for the event which was to get the Las Vegas members

fired up and volunteering for the upcoming PSR Regional Convention at the Texas Station. Carl Heimberger and myself drove up together for the day and considered this as the 'launching of the convention process' so to speak.

Our thanks go out to all who volunteered as we left feeling very confident that all is fine as we now approach September 2nd, 2009. We are having a similar meeting of volunteers at the Temecula 2009 event on March 28th at 5pm at 'Pat and Oscar's by the Pond'

Here are a few of the names in attendance: Charlie and Connie Abbott and Grandson Ryan, Mike and Mary Grippo, Robert Broom, Brian Block, Lynn Austin, Bill Graebel, Rick Fulderson, Marty Judd, Bill Jacobs, Ed hall, Dale Tripp, Ken Allen, Don Stice, Kurt Meisel, Larry Dewsnup, Lane Smith, Carl Heimberger, Bob Mitchell, and of course the family dog 'Joker'.

Down the Line Continued from page 3

Not meaning to digress in this column, but last year with **The National**, **Barstow** and **Temecula** a great many volunteers were required. Hopefully the volunteers didn't burn out with so many major events in one year. And here we are in 2009 with the same scenario...**Temecula 2009**, Barstow 2009, and the Regional. It's not too late to be part of these events by volunteering early..."*I need all the help I can get.*" (Taken from the movie "High Noon")...You all know how that picture ended.

Let's not forget **John King's** High Desert event in June. John is our High Desert Foreman and has been putting this event on for the Cajon Division for several years now. Our thanks go out to the **Orange County Module Railroaders** for all of their past participation.

By attending this event, we can keep it alive and show the vendors that show up how much we also appreciate them.

What about Las Vegas events? We are looking forward to having an event at **Lynn Austin's** home this year in hopes of recruiting some additional layouts for tours at the Regional...and some other surprises. If you have a layout and can open up your home to a Vegas meet, let us know. Our Vegas crew is all set up to help you make it a success. I am saving **Brian Block's** layout for the National. He tells me the scenery will be fully complete by then.

Until next time, keep on modeling...the Regional is coming up and we want to see your models in the contest room.
